NATURAL BEAUTY

FRANCESCA'S PAINTS

Warm neutrals make up the palette for 2023, with putty shades and muted colours creating intrigue and depth. Pictured is Thrift, a pale, soft pink made with my favourite pigments, raw and burnt umber and yellow ochre from Francesca's Paints.

CURVE APPEAL

ERCOL

Ercol's Ancona range is defined by soft contours and graceful lines; there are no sharp angles or projecting corners anywhere in its striking, sculptural design. Table tops and shelves are lozenge shaped, giving them a subtle Art Deco look, with all joints gently scooped and flowing smoothly. Compact proportions make the range suitable for smaller spaces. NEW NEUTRALS

CROWN PAINTS

Crown's new Abstract Insights colour palette is warming, light and neutral with a focus on understated subtlety. Soft neutrals and creams bring warmth and comfort with a hint of gentle organic green and contrasting unsaturated black-brown to complete the look.
