

Soft serenity

Decorating with new neutrals, inspired by colours from the natural world, adds a gentle and soothing touch to interiors that can be layered with textures and tones to ebb and flow with the seasons

NATURAL CANVAS

Colours inspired by nature have an intrinsic calming influence, provoking a similar response to that from gazing out upon a beautiful country or seascape. Inspired by the untamed landscape of the Outer Hebridean island of Barra, Francesca's Paints' new Postcard from Barra collection draws on elements of the island's natural features. Walls painted here in Traigh, reflecting the soft golden colour of the sandy beaches, 'elicits a sense of peace and serenity,' explains founder and colourist, Francesca Wezel. Priced from £35 for 1ltr of Eco Emulsion.
